I could swear I copied you on Friday, sorry. The letter is just being looked at by my DD for first time today (a "3b" follow-up letter on 404 mitigation, to Corps, for her sig). However, given the EIS business of the moment, I think it may get OFA's editorial attention as it'll likely be flagged by my senior management for their "awareness."

Also note my mention of the Secretarial Order below is moot since FS is under USDA, not DOI...oops.
